

Antistatic Resting Stool (Bar Type)

It is coated with high-quality polyurethane. It is suitable for the medical industry. Height adjustment is provided by a gas column and offers three different chair height options.

As standard, the chair is equipped with a five-star chrome-plated base and RS-KCZ/K8 casters covered with conductive rubber, which prevents scratching the floor.

Modifications and additional accessories are available.

Seat diameter: 330 mm

Construction: The chair's cradle is equipped with a chrome-plated five-star base and non marking, conductive rubber-coated casters.

Material: The seat is covered with high-quality polyurethane, ensuring durability and ease of cleaning.

Compliance with Standards: PN-EN 1335-1:2004, PN-EN 1335-2:2009, PN-EN 1335-3:2009, PN-EN 1022:2007

Chemical Resistance: Pn64-/C-04401-11, PN-EN ISO 787-15, ISO 2219

	Datasheet	Product Code: CH-6005/6/7
		Pages: 2 / 2
		Date: 05.05.2025

Ürün Kodları:

CH-6006: 430 – 560 mm

CH-6005: 520 – 700 mm

CH-6007: 550 – 800 mm

Compliant with IEC 61340-5-1:2016
