

Under Desk Grounding Terminal (2 x Banana + 10 mm)**Technical Specifications**

The under-desk grounding terminal is designed to provide a safe ESD grounding connection in EPA areas. It is suitable for use with desk, floor, and personnel grounding cables, featuring 2 banana sockets and 1 10 mm stud connection. Its compact design allows for easy installation under the desk and provides effective protection against electrostatic discharge.

Dimensions: 70 x 38 x 24 mm

Resistance: 1 Mohm

Color: Yellow

Supplied in an ESD-protected pink bag.

Compliant with IEC 61340-5-1:2016
