

CONDUCTIVE WASTE PAPER BIN

The conductive waste bins are useful in the ESD Protected Areas, they are made of black conductive polipropilene.

Technical Data

Permanent, carbon loaded, conductive Polypropylene

Point to point resistance R_p $< 10^6 \Omega$

Washable

Max service temperature: 70°C

7804.406 Diameter 270mm(int) max, height 270mm, volume 17 litre

7804.407 Diameter 420mm(int) max, height 560mm, volume 60 litre
