

Wired Wristband Under Desk Test Monitor

The Wired Wristband Test Monitor is designed to monitor personnel's grounding safety in ESD-controlled areas. Its warning light structure enables real-time status monitoring. It is compatible with all banana-plug wired ESD wristbands and operates on 220 V AC power. Its compact design and dimensions of 67x60x29 mm allow for easy installation and practical use.

Technical Specifications

Compatible with all wired ESD wrist straps with banana plug connection

Inputs: Banana

Warning: Illuminated

Dimensions: 67x60x29 mm

Power supply: 220 V AC

Compliant with IEC 61340-5-1:2016
