

CONDUCTIVE WASTE BIN

The conductive waste bins are useful in the ESD Protected Areas, they are made of black conductive fibreboard formed around steel hoops shaped at the top of the bin.

Technical Data

Size: 40x40x78 cm
Weight: 3Kg

Surface resistivity $< 1 \cdot 10^6 \Omega$
Resistance from top to bottom: $< 1 \cdot 10^6 \Omega$
Resistance to ground: $< 1 \cdot 10^6 \Omega$

7804.404 Conductive waste bin 120 litre 40x40x78 cm
